RE: Site Inspection Pursuant to Bond Release at the
Crystal Mine, ACT/045/010, Tooele County, Utah

A request for bond release was received June 11, 1986 for the Crystal Mine. The mine site was reclaimed in the fall of 1983 and is now eligible for bond release under the 3-year bond liability period. The site inspection should be conducted soon and the results of this inspection would determine bond release.

The bond is a money market certificate, No. 134528, in the amount of \$17,000, presently being held at the State Treasurer's Office for safekeeping.

Please advise.
